ERIE FOUND

New York, Feb. 13 .- The first trading in the Erie stocks after the announcement of the new bond issue found a weak market. The scarcity of money in London caused lower prices there this morning which was reflected here at the opening all through the international list. Declines were fractional throughout. Bear traders did not im mediately follow up their opening advantage and prices hardened slowly. Active buying of a few specialties contributed much to the rally. Smelt ing advanced over a point and there was a good rise in Amalgamated Copper, Leather and Missouri Pacific. Near 11 o'clock Rock Island, the Eries and Southern Pacific fell lower than before, carrying the general list with them. The selling of Eries was the feature, the common losing 1%, the first pre-ferred 2 and the second preferred 2%. The whole market was affected, but the declines were mostly fractional. Rock Island, Southern Pacific, St. Louis-Southwestern preferred, Brooklyn Transit, Metropolitan Street Railway. Leather preferred lost a point, American Twine 21/2, Metropolitan West Side

Elevated 3 and Commercial Cable 8. Bonds were irregular at noon. The steady declines of the Eries dif-fused a feeling of depression around the room. Declines of a point were numerous and included all of the specuative favorites. In the case of South ork, Chicago & St. Louis second pre-cired the decline reached 2@2½. Eries old a good fraction below the noon evel. Some buying to cover in the cheral market steadled the list later hen it became dull.

Fire stocks which rallied a point or aged about 1/2. The advance invited re-newed selling of Erie, but the stock was igorously supported and the rally pro-
